PARENT TESTIMONIALS

Patricia Bayley

I often think of PS 18 as "The Little Engine That Could"—a small but mighty school where students are nurtured and taught the importance of perseverance, empathy, and teamwork. The staff know not only each child's name, but also their families, creating a true sense of community that feels like a small village within New York City. The school's intimate size fosters a welcoming, inclusive environment and ensures that every student—regardless of ability—receives the individualized attention they need.

Alexandra Cerda

What I love most about PS18 is the strong sense of community. It's a small school where the staff really take the time to get to know each child and that's made all the difference for my son. Over the years, I've seen him really come into his own. He's gone from being quiet to confidently using his voice, most recently representing PS18 in the District 14 elementary school debate. That kind of growth happens when a child feels seen and supported, and I'm so grateful for that.

Adarmida Ramos

As a parent, watching my child grow from Pre-K to 3rd grade at this school has been a truly rewarding experience. From the very beginning, we felt welcomed by a supportive community of dedicated teachers and staff. The school has nurtured not only my child's academic growth, but also their confidence, creativity, and love for learning. I'm incredibly grateful to be part of a school that values both education and the well-being of every student.
